MAKE IT A GOOD ONE.

MAKE IT A GOOD ONE

As the time for our Fall Fair approaches we are reminded of the desirability of making it agood one. The directors, the committees can not make it a good one, but it requires the cooperation of every citizen in the district. Of course there are peculiar difficulties to contend with in the establishment of a first establishment gives more trouble than they will when the institution has become established. But the way to solve these problems is for each to take an extra interest in the Fair this year. True, men will have to calculate at a disadvantage this year. They have not been form a cribition they have been looking forward to, but once established all this will be different such they are the proposed on the content of the proposed of

looking forward to, but once es-ablished all this will be different another year.

The way to make our exhibition a fixture and a greater success each year is for each farmer topatronize it in the best possible manner this first year. There is a bot of excel-lent stock in this district, an abund-ance of manyrassed vegetables, a quantity of very fine grain. But men say, "It is not good enough to take a prize," Prize nothing! It is the exhibition we want. Prizes are unimportant compared with other considerations. What is really desirable is that fairs should be the means of disseminating in-formation and of fixing correct iceds in the minds of thosa when ideals in the minds of thosa when ideals in the minds of thosa when ideals in the minds of thosa when the prosperity of Canada whom the prosperity of Canada have a fair but will do the district result.

Educational Growth in the Territories.

Fere Press.—The annual report of the Department of Ethestion for the North-Territory, and the Press of the Department of Ethestion for the North-Territory, and the Press of the North-Territory, and the reduces that in educational natters, as in every other phase, or neitivity, the present is the growing time in the Canadam West. No less than 167 new schools were containized last year, as compared with 21 in 1890. There are now 736 school districts in the Territories with an argregate income of 8151873.37, over the preceding year, and and of § 8514. an increase of \$877,377, ever the preceding year, and and of \$854,4613 over 1901. The trave educated have increased from \$871,190 in 1999 to \$418,000. The needs of \$000 in the Year and now angunt to \$1,533,530,917. The liabilities are \$708,000 of which \$500,000 is from \$1,533,500,917. The liabilities being specific are of a substantial character is a tig to be the runs shoots built during the part of the translation of the translations built during the by are covered by the request was \$1,000. year covered by the reposition \$1,033.

There were 1.153 teach There were 1,153 teachelys employed during the year, 57 jer cent being founders. The average mon-thly salary paid was \$47.07. Wently three per cent third-telles certificate, 69 per cent secold-class and 61 per cent third-class or pro-sistant certificate, into a fastacher in the Territories is three years the records showing that 600 or one third drop out of the prefession every year.

CHILDREN'S DAY.

CHILDREN'S DAY.;
Sunday Sept. 25th proved a day of interest in the history of Ponde and port of the president of the presiden Mrs W. H. Came west of town Thunksgiving Day for this season. In the constituency where weeks nage.

Rev. J. E. Pengelly moved into the characteristic fine driving team.

Rev. J. E. Pengelly moved into the characteristic fine driving team.

Rev. J. E. Pengelly moved into the characteristic fine driving team.

Mrs C. D. Algar has been como fined to her bed the past week with a mattack of scientistic.

Mrs C. D. Algar has been como fined to her bed the past week with the matteristic fine driving team.

Mrs W. F. E. C. Threliheld was confined to the fixed but a standard weight of the constituency. It is a little but to chronic the the fact but it a standard weight girll made for advent at his house about five weeks age.

Col. Gregory, the C-Parmer Condidates for M. P. was niceral working the electors of this part of the constituency his week. How the constituency his week. How the constituency his week and falling last Friday amounted to the sacred fall graph process.

The same we reported as fall graph process, and the constituency his week. How the constituency his week. How the constituency his week and falling last Friday amounted to find the sacred fall complement of the scholars—for the constituency his week. How the hour of service arrived a tent of the constituency his week. How the hour of service arrived a tent of the characteristic and the constituency his week. How the hour of service arrived a fall complement of the scholars—for the constituency his week. How the hour of service arrived a fall complement of the scholars—for the constituency his week. How the hour of service arrived a fall complement of the scholars—for the constituency his week. How the hour of service arrived a fall complement of the scholars—for the constituency his week. How the hour of service arrived a fall complement of the scholars—for the constituency has been an average of the constituency has a supplication.

Cold Gregory the "Famore Conditions of the week, the constituency this week improved.

Since the constituency this week improved. The snow we reported as the constituency this week improved. The snow we reported as the constituency this week in the store of Fowler & Beach and the constituency this week the three that kiving where he takes a position in the store of Fowler & Beach and the constituency of the constituency the week and the period of the six of the store of the district of some as better for the district of some as the period of the week. The purchaser was T. A. Carfson of Forest City, tond the some as the forest to be used for pickles of Alberta and for the bed in the size of the some as a superchased a quasilon of \$10 per acre. He were capted to the work of the week principle for the order to the work of the district of the d
